Russians Are Revolting gime, and Its Situation For MacSwiney Is Precarious.

Riffa, October 5 .- (By the Associated Press.)-An agreement for the signing of an armistice, preliminary to peace not later than October 8, was received this evening by M. Joffe and M. Dombski, heads of the Russian and Polish delegations,

respectively.

M. Dombski told the Associated Press that the details of the agreement would be made public tomorlow. He said that the agreement as on the Polish eleven points declaration, made at the beginning of the Riga conference after M. Joffe's Moscow declaration.

Washington, October 5 .- Prestdent Wilson today wrote to Senator Spencer, republican, of Missouri, that the statement recently made by the senator that the president had promised American military ald to Roumania and Serbia in the event of the invasion of those countries was "false."

Senator Spencer's address was delivered in Missouri and when it was called to Secretary Tumulty's attention, Mr. Tumulty gave out a statement to correspondents of St. Louis newspapers declaring that the senator's statement was "absolutely and punqualifiedly" false. Senator Spencer in turn issued a statement saying that he did not believe the president had author-

secured his keys and got the negroes out of their cells.

Jim Givens, the negro who is charged with actually firing the shots which killed Hr. Harvey, escaped immediately after the shooting and late tonight was still at large. Posses were on his trail and it was believed his capture was only a matter of hours.

Harvey was shot to death at Knabb's turpentine camp about ten miles northeast of MacClenny.

After the killing the negroes escaped, but three of them were captured and lodged in the MacClenny county jall. Although feeling ran high against the blacks, it was not believed an attempt would be made to lynch them as the negro charged with the actual killing was still at large. MacClenny was quiet tonight and no further trouble was expected inless Jim Givens was captured.

With an estimated attendance of between 1,500 and 2,000 old soldiers, the annual reunion of the Texas division of the Confederate Veterans was held today and was marked by lively debate over the propriety of passing upon a motion introduced which indorsed the administration of President Wilson, expressed accord with the league of nations and denounced the republican party. Major General E. W. Kirkpatrick, of McKinney, Texas, commander of the division, presiding, ruled that the motion introduced a political question and action of such question would be a violation of the rules of the organization. The motion was tabled.

At the school buildings "shakedown" beds were prepared with mattresses and blankets and this morning the old soldlers were drawing comparisons between their "billets" of the present reunion and their war-time bivoucs.

At the mess tent, under the direction of E. A. Piekens, steward at seven previous reunions, arrange-

ten thousand veterans without cost to them, three times a day.

First-aid stations have been established at each of the three railway terminals and at convenient places in the downtown district. Thus far there have been few patients at these stations and no serious cases.

125 counties for Hardwick and Jim Dozier stating Walker will easily carry 97, with a total unit vote of 222, after a very careful analysis, which gave every doubtful county ex-senator. The supporter of the former attorney general are of the opinion the political alignment during the past week has been greatly changed, and in this connection the shift of a large part tioned.

Against Eight-Hour Law.

This contention is based, Mr. Do zier stated last night, on the fact that Hardwick voted against the eight-hour law and the open declarations of several prominent labor officials that they were sup norting the former attorney gen eral. The impression Hardwick's headquarters has attempted to create that the labor men were voting for the ex-senator is absolutely

false, he also stated. Throughout Tuesday and last night a flood of telegrams poured into Walker's headquarters assur ing the former attorney general o his nomination today by a safe maority. Telephone communications from all of the "big six" coun ties, including Richmond, reported the situation in favor of Walker, and reports from all sections were very encouraging, Mr. Dozier stated "One of the most significant derelopments of the run-off cam

Hardwick's headquarters' officials were in close touch with their leaders in practically every county yesterday and last night, and Judge Howard issued a final statement in the afternoon in which he declared every indication was favorable to Mr. Hardwick's nomination.

"Our reports show that there is more enthusiasm in behalf of Mr. Hardwick in this campaign than in the first race. Warm and Fair Weather.

With the weather man predicting warm and fair weather for today's balloting, a number of politicians are of the opinion that between 150,000 and 180,000 votes will be cast. Others estimate the total will be around 200,000, and all are unanimous in the prediction that the national democratic campaign fund will be considerably enriched by the "contribute as you vote" plan, adopted by C. J. Haden, finance chairman of Georgia.

When it was discovered the Nelli primary law provided no means to meet the expense of a second campaign, it was thought both of the candidates would have to put up the money, but a practically complete crew of volunteers has been obtained to handle the balloting today, though it has been necessary for Mr. Hardwick and Mr. Welley. Hardwick Headquarters' Statement.

Hardwick Hendquarters' Statement.

Hardwick's headquarters made public the following statement:

"Every indication is favorable to Mr. Hardwick. He has held his own forces absolutely intact and he has the support of the Watson forces in virtual unity. In addition he will have the personal vote at the polls of John N. Holder, opponent in the first race, and of Senator Hoke Smith, and will receive large majorities of the votes of the Holder and Smith men. He has made inroads on the Walker strength in all parts of the state, and there is not one sign which will indicate that he will receive less than the unit vote of 125 counties.

"In the first primary we predicted."

The first primary we predicted that Mr. Hardwick would carry 103 counties, declaring that he would get virtually the same vote as Mr. Watson. Own The Apartment You Live In

The Co-Operative Tenant-Ownership Plan Makes This Possible and Easy

> Atlantans are face to face with the most serious housing condition ever known

> > This condition had its beginning with the big fire in 1917, when hundreds of homes and apartment houses were wiped out and have never been rebuilt. This was followed almost immediately by the war, during which time building was absolutely suspended in order that every available man and all building material might be used by the government in handling that most serious situation.

> > Now that the war has been won and we are getting back to a pre-war basis, we find that Atlanta is at least five years behind in building, with desirable locations, labor and building materials so scarce and expensive that is absolutely impossible for for many to build, and not considered wise or expedient to do so by others who are more favorably situated financially and who can afford to do so.

Yet-there is a way out of the difficulty-The Co-operative Tenant-Ownership Plan. By this plan you become a part owner in one of Atlanta's newest and most modern apartment houses located in one of the most choice residential sections, and become your own land-lordpaying rent to yourself, protect yourself forever against enforced removals, increased rentals and similar annoy ances.

The Co-operative Tenant-Ownership Plan is not an experiment. Similar plans have been worked out in the larger cities of the North and East and have proven not only popular but thoroughly practical in every way, saving the Tenant-Owner about twenty-five per cent of his usual rent money from the start, and at the same time enabling him to become a part owner and have a voice in the management of the building.

In introducing The Co-operative Tenant Ownership Plan to Atlanta we believe that we are offering the public a long step in the march of progress, and as we see it, the only solution to the housing problem which now confronts the man who wants a home.

Ask us about this plan. Your inquiry involves no obligation and will be handled in the strictest confidence by an official of our firm.

A Motor That Runs Indefinitely

At the end of three thousand miles is your motor exhausted or refreshed? run down or tuned up? eager for the repair shop or the road? all in or all ready?

No motor will run forever, but it is definitely established that the Willys-Knight Sleeve-Valve Motor will run indefinitely.

It has no valves to grind, and its efficiency is improved, rather than impaired, with use.

It does not have to be continually taken to pieces and put together again, for it is made right in the first place, and will make good to the end!

Just keep running the motor and stop running up bills!

Fulton County Expected to Raise \$40,000 of State's \$300,000 Quota.

The Advertise Georgia Enterprise is beginning to get under way in Fulton county, although any concerted action towards the raising of the \$40,000 quots to the \$300,000 state fund is being held in abeyance pending a conference of civic leaders during the next few days. Thesday's mail brought to Governor Dorsey's office several handred dollars from members of the Advertising club, who were appealed to by President Dave Webb to set an example for Atlanta by investing "100 per cent to the enterprise."

prise."

J. K. Orr, having received one of the "Come to Georgia" booklets outlining the enterprise, wrote to the "Come to Georgia" booklets outlining the enterprise, wrota to the governor:

"It seems to me that Georgia can well afford to invest this money in the future upbuilding of the state."

He sent a cheek for \$100.

Among other volutnary pledges was \$100 from Dave Webb, for Webb & Vary company: Ragan-Malone company, \$25; E. J. Perkerson, \$10; W. W. Croxton, \$10; Denison Interlocking Tile company, \$10; J. L. Edwards, \$10; A. J. Fleming, \$10; F. C. Morton, \$10; Mers-Miller Furniture company, \$10 Charles S. Robinson, \$20.

Following the news from Charleton county, in South Georgia, Monday, that the county commissioners voted the entire sum of their quota for the enterprise, word came Tuesday, that the capitol, that Bacon county business men, meeting in Alma, had selected a special committee to immediately raise that town council, county commission and business men are to each subscribe a third.

Georgia First State.

and business men are to each subscribe a third.

Georgia First State.

With North Dakota having voted \$200,000 to advertise and develop ther idle lands, and Oregon planning a state advertising enterprise, Georgia, by raising the \$200,000 fund during October, will still be the first state to officially advertise her vast resources. Two of the big railroads of the south are behind Advertise Georgia now. Development of idle lands means better conditions for them and the whole state, they say. The railroads are the Southern and the A. B. & A.

The Southern railway recently conducted an advertising program in farm journals of Illinois, Iowa and other western states where land its scarce and prices have become high, "and where many farmers have disposed of their lands and are seeking locations elsewhere." wries Lincoln Green, vice president of the Southern, at Washington. Hundreds of prospective land-buyers from the middle west have been listed and their names furnished to the Advertise Georgia Enterprise, to be "followed up." In other words, without any effort, the Advertise Georgia headquarters has the names of substantial farmers who are in the market for lands. Georgia has 20,000,000 acres of idle lands, get prices of \$5 to \$50 an acre, and on which cattle can graze nearly all year round, and on which two crops a year can be raised.

From B. L. Bugs, president of the A., B. & A. Railway company, came an enthusiastic letter to Governor Dorsey, stating that he is "odls" on the details of the advertising plan. J. L. Edwards, vice president of the A., B. & A. Railway company, came an enthusiastic letter to Governor Dorsey, stating that he is "odls" on the details of the advertising plan. J. L. Edwards, vice president of the A., B. & A. Railway company, came an enthusiastic letter to Governor Dorsey, stating that he is "odls" on the details of the advertising plan. J. L. Edwards, vice president of the A., B. & A. Railway company, came an enthusiastic letter to governor general chairman of Advertise Georgia, follows, i

Letter to Governor. "Dear Governor Dorsey: After seeing you yesterday, Mr. Edwards and I had a most interesting and satisfactory conference with Mr. Hamlin. To use an advertising phrase, he sold us. We are convinced that he is working along the right line, and that the successful accomplishment of his plans will result-in great benefit to Georgia. "We have a live organization, which we are willing to put behind Mr. Hamlin's efforts and yours, and will co-operate to the extent of our ability."

That Georgia has a wonderful on-

ability."

That Georgia has a wonderful opportunity to become the leading live-stock state is shown conclusively in many ways, officials say. Quoting from "Everybody's Business," in the last issue of The Saturday Evening Post is this:

"The government surveys show that mere than 4.000,000 cattle and sheep on American ranges died of starvation and disease last winter. This means a loss in meat of more than 1,500,000,000 pounds, or enough to provide 14 pounds for every man, woman and child in the nation."

Georgia is recognized by the government as a live-stock state, in that there are 71 experimental pasture stations of the United States in Georgia; the state is almost entirely rid of cattle tick; there is a nine months' average ranging season, as against a six weeks' pasture season in other states, while Georgia is closer to the cattle markets of the country than the western cattle states.

The Advertise Georgia Enterprise

country than the western cattle states.

The Advertise Georgia Enterprise is backed by the Georgia association and Advertising Clubs of Georgia, with Governor Dorsey as general chairman. The advertising in national publications on "Come to Georgia," featuring her resources, and sparticularly agricultural, mineral export and import, reports and other possibilities, begins in January, and will cover a period of one year, while the work of "following up" all prospects will cover a three-year period.

SHOT IN QUARREL, PROMINENT MAN OF QUITMAN DIES

Quitman, Ga., October 5.—(Special.)—S. Tom Harrell, prominent produce buyer and cotton merchaft, who was shot last week by B. R. Strickland, who was engaged in the same line of business, died this morning at 510°clock. The funeral will be conducted tomorrow afternoon. noon.

The shooting, which was done with a high-powered rifle, it is said, was the result of a business transaction, during which it is understood hard words were used by both parties. Strickland, who has been under a \$10,000 bond, was arrested this morning and placed in jail on the charge of murder. Both men are prominently connected and are well known throughout this section.

The ceremonics Opened.

The ceremonics were opened with prayer by Dr. W. F. Glenn and music under the direction of Dr. D. G. Swaygerty, musical director of Wesley Memorial church. Bishop Candler, in his utroduction of the speaker, pointed out the fact that "this occasion marks the close and and the beginning of a chapter" He referred to the building of Wesley Memorial hospital in 1905 and emphasized the fact that since that time "it has given itself away three times." in free charity work tripling the original cost of erection.

Dr. Shelton briefly outlined the history of medicine from the early times of soothsayers and necromancers in order to reveal the fact that the hospital is the contribution of Christianity and essentially a monument to the Christian faith. In this connection he outlined the intimate relation between all religious work and that of healing.

BANKERS TO ATTEND COTTON CONFERENCE

To Be Held in Atlanta Friday Afternoon to Take Steps Against Decline.

Upwards of 150 Atlanta bankers and business men have been invited by personal letter to attend the conference to be held Friday afternoon at 3:30 o'clock in the assembly hall of the chamber of commerce, for the purpose of tak-fing steps to meet the alarming situation caused by the recent decline in the price of cotton.

B. F. McLeod, a prominent Charleston business man and chairman of the finance committee of the American Cotton association, is coming to Atlanta to address the conference. Governor Manning, of South Carolina, will also be here. J. A. Brown, a very large planter and banker of Chadburn, N. C., will attend the meeting. Senator Hoke Smith was invited to attend and take part in the discussion, but will be obliged to go to Columbus on another engagement. Robert F. Maddox, president of the Atlanta National bank and a former president of the American Bankers' association, will be one of the speakers.

About Was and Banking

This is the first of a series of brief sketches of Banks and Banking which we hope will prove interesting and useful to those who read them

To many people banking is a mystery. They have a notion that a bank is a cold. unfeeling institution, -little more than a money vault, and with but small appreciation of the everyday affairs of "regular folks." Others regard banks as wholesale bookkeeping concerns. Still others think, and rightly, the chief function of a bank is the upbuilding of the community in which it is located.

The story of banking is necessarily a record of the development of ideas connected with money and credit rather than a definite recital of when and where these ideas were put in operation. Banking, as we know it today, is the outgrowth of the "arystallized experience of centuries." Its beginnings are veiled in antiquity and its evolution is still going on.

The proceeds will be used for the committee's annual Christmas tree for poor children.

Agnes Scott Poets Honored by Publishers.

Two Agnes Scott students, Miss Janef Preston and Miss Margaret Bland, have received quite a dis-tinction in having a poem published in Poets of the Future, a small vol-ume edited weekly by the Stratford Publishing company, in which the best work of college students of the entire country are published.

Miss Preston is this year a senior at Agnes Scott, and Miss Bland reat Agnes Scott, and Miss Bland re-ceived her degree last term. Both were members of the Agnes Scott class-in verse forms, and of B. O. Z., the college writers' club. The two poems have been published in The Aurora, the Agnes Scott quar-terly.

SURE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way that ever falls to get it rid of blackheads and that is to dissolve them.

To do this get two ounces of calonite powder from any drug store sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads heads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Black heads have disappeared ligiblackheads are simply a mixture of dust and dirt and secretions from the skin—pluching and squeezing only cause irritation, make large pores, and do not get them out after they become hard. "Was she worth it?" inquired Helen, frankly amused.
Stephanie's cheeks cooled; she replied carelessly:

"She had button eyes and a snub nose and her attire was transparent—if that interests you." She rested her elbow on the edge of the box, supporting her chin on her cupped paim.

They were dancing again. Grayson came and took out Helen; a number of men aprived clamering for Stephanie. She finally went out with Verne, but not liking the way he held her left him planted and returned to the box where a number

Harry Belter said:

"What's the trouble. Steve? I never saw you glum before in all my life!"

"Tm not glum," she said with a forced little laugh, 'Tm thirsty, Senoir Bacchus! Isn't that enough to sadden any girl?"

Later Helen, returning from the floor, paused beside Stephanie to bend over her and whisper:

"Harry Belter is behaving like a fool. Don't take any more, Steve."

The girl lifted her flushed face and laughed!

"I feel like flinging descretion into the 'fire of spring,' she said." That's where most of these people clothing has disappeared, I fancy." Excitement burned in, her pink cheeks and wide grey syes, and she stood up in the box looking about her, poised lightly as some slim winged thing on the verge of taking flight.

Grismer rose too and whispered to her, but she made a slight, impatient movement with her shoulders.

The Facts of the Telephone Situation in Georgia

By J. Epps Brown, President.

SOUTHERN BELL TELEPHONE & TELEGRAPH COMPANY

Why Telephone Material Is So Scarce

The telephone material supply situation is always one of factory capacity, labor, raw materials and transportation.

Prior to August, 1914, the supply of raw materials; the manufactured output; labor and transportation, was adequate. As a result prices were low and deliveries

From June, 1916, to April, 1917, (when this country entered the war) prices averaged an advance of nearly 100 per cent and deliveries became intolerably slow.

Raw materials for telephone purposes are obtained from all parts of the world. Platinum, used in switchboards, came

from Russia. Silk, used in vast quantities for insulating wires, comes from Japan.

Old manilla rope, used in making paper for insulating wires in cables, comes from the wharves of the world. Diamonds, used in drawing out fine wire

for use in switchboards, came from Europe. Many other illustrations could be given. These foreign sources of raw materials supply were eliminated during the period of

the European war and are now far below, Lead, copper, iron and tin, used in large quantities in the manufacture of telephone equipment and materials, are also essential for the making of munitions. The war greatly, reduced the available amount of

raw materials and lessened the telephone manufacturer's production. Strikes in industrial centers which furnished the raw materials, and strikes and embargoes on railroads essential to transportation of both raw materials and the finished products, are prime factors in the present shortage in telephone materials and

The factories of our suppliers have capacity for much larger output, but strikes, shortage of productive labor, lack of fuel, shortage of transportation facilities and embargoes affecting the sources of raw materials, have greatly interfered with their

possible output. Today, with prices higher than war prices, the demand greater than ever known, current production is far less than the demand, being approximately 40 per cent below the average, with deliveries slow

and uncertain. In the face of this condition the demand for telephone service has increased and con-

tinues to increase enormously. To meet this demand all available surplus facilities and materials were gradually but

constantly put into use. When the United States entered the war in 1917, the Government needs were, of course, given precedence and only a small part of the available raw materials manufactured from that date until the signing of the armistice was alloted to telephone companies.

This was true even during the period when the Government was in possession and control of the telephone properties of this

The greater part of the available telephone equipment and materials was sent to France, none of which was ever returned.

On August 1st, 1919, when the telephone properties were returned to the owners by the United States Government, the available supply of equipment and material was so small and the needs of the telephone companies in this country so great, that all the telephone factories in the United States, working day and night, could not within three years have furnished the equipment and materials necessary to restore the facil-

ities to the pre-war status. The equipment and material required by this Company to complete its 1920 construction program, will equal 1,600 carloads of freight, averaging 40,000 pounds to the car, hauled from different parts of this country and delivered at hund in the five states in which the Company operates. This is equal to forty trains of an average of forty cars per train, or 32,000

tons of material. Every business man knows what this

means. Freight shipments from the industrial centers of the North and East ordinarily were delivered within two or three weeks;

now a much longer time is required. The Western Electric Company is the largest manufacturer of telephone equipment and materials in the world. It has representatives in all the markets of the world. It buys its raw materials in vast quantities at the lowest possible prices.

Election of Walker Would Be Inspiration

Editor Constitution: I have know Clifford Walker and his splendid family for twenty-five years. His affiliations and his ideals have always been on the side of vital Christian citizenship. He is clean, brilliant, dependable.

It would be a safe example-inthe young manhood of Georgia-to tave a stainless, God-fearing man like Clifford Walker in the gov-ernor's chair. I am publishing this without his knowledge. F. WARD PARK.

Two Women Charged With Violating State Prohibition Laws

Two alleged women violators o the state prohibition law are at liberty under bonds for their appearance for trial in the criminal court of Atlanta.

One of them, Mrs. Mary Ferguson, pretty young woman, who lives on the Howell Mill road, is charged with manufacturing the She was arrested Monday evening by county policemen, who stills were seized and confiscated Her bond was fixed at \$500.

> But evidently times have changed. In this hour of a wave of radicalism never experienced before in this country, with the red flag of Russian "isms" being waved almost triumphantly in almost every nook and corner of this great free republic, that old regard for personal honor among men who aspire to high office has almost if not entirely been dissipated by a new school of thought that feeds apparently upon abuse, vilification, vindictiveness and billingsgate.

It is a sad condition-an alarming condition; and if there is not a right-about-face in this mad rush toward the rule of the moh, and toward a tendency to place a premium upon the personal prejudices and passions of the irresponsible. God only knows what the consequences in the end will be.

That there will be a reaction every thinking person knows. It will come with a powerful force when it comes. But in the meantime, think of the wreckage in the wake! The pendulum will swing back. of course. It must swing both ways before it settles to a plumb. But how long before the return swing? How long shall reputable people be maligned, lied about, hounded, vilified, before the great sober second thought shall assert itself and before the upstanding citizenry of this state, believing in safety and sanity and conservatism, shall dethat reason shall take the place of passion, and that the in-

But that was not all—

Under the cover of a nom de plume again this same newspaper threw its poison needle into the veins of Georgia, and charged Clifford Walker with stopping the erection of his home "because comerection of his home "because com-missions on an inheritance tax were going to stop," stating that the contractor "so stated it to more than one man," when the contractor branded such a statement, buried beneath the misnomer of "Justice," as "a lie out of the whole cloth." Hearst to deteat Clifford Walker.
Every person should read it:
Carteraville, Ga., October 4, 1920.
Personally appeared before me, a notary public in and for said county, Eugene W. Smith, who deposeth and says: My attention has just been called to an article headed "Attack on Walker," etc., and more particularly to that part of an article signed "Justice," which is said to have appeared in The Atlanta Georgian on Thursday of last week, reading:

The Atlanta Georgian on Thursday of last week, randing:

"This is not all. Cliff was building his mansion here at the time the hiberitance tax was aired in the papers. Smith, the contractor, had orders for various kinds of elaborate improvements. Suddenly all this was countermanded.

"Why? Because the 10 per cent to the lawyers over the state was going to be stopped. This was the conclusion formed by the dontractor and he so stated it to more than one man. If Paul Smith was now in life he would say the same thing."

I personally secured the contract from Mr. Clifford Walker for the erection of the building of his home in the name of my father, R. W. Smith (now deceased), the firm then operating under the name of E. W. & E. W. Smith.

operating under the name of E. W. & E. W. Smith.

I am very familiar with all the facts relative to this contract and the building of this residence. When the pians were submitted by Messrs. Edwards & Sayward, of Atlanta, I made our estimate and bid. Mr. Walker had the plans modified to reduce the cost of the building. When the final estimate and bid was made by us and accepted by Mr. Walker, the building of the home proceeded and from time to time additions and changes were made from the original plans (a very common occurrence in all my building operations and experience), for all of which Mr. Walker paid such additional money, as was agreed. Mr. Walker paid for this dwelling considerably more on account of these additions and changes than our original bid on the final plan which was accepted.

I unhealtatingly brand this statement signed "Justice" as a lie out of the whole cloth, and slander on the character and good name of Clifford Walker, and a slander on the good name, honor and integrity of my dead brother Paul, the use of which I consider more cowardly in this connection than mere words of mine will describe.

THE TEETH AND ARTHRITIS IN CHILDREN.

Dentists, like all other progressive artists, cordially disagree on me of the fundamentals of their art. A thoroughly trained and experienced dentist asserts that every carious or decayed "baby" tooth (primary) should be either filled or extracted and that this precaution in keeping the mouth cavity free from foci of infection is much more important in early childhood than in adult life. Another dentist of equal standing and skill insists that it is better not to extract the primary teeth, even though they be hopelessly decayed, for if they are extracted the development of the jaw is impaired and the secondary teeth will be uneven and more subart. A form of longenduring joint disease in children, vulgarly called "rheumatism" and cruelly termed arthritis deformans (or by compromise "rheumatoid arthritis"), has been frequently charged up against bad teeth and in about half of such cases the wholesale extraction of the condemned teeth has proved markedly beneficial, the other half showing no improvement.

I have described in this department the close contact between the last molar teeth and the tonsils and pointed out the frequent association of infected tonsils in childhood with decayed molar teeth. The removal of tonsils on suspicion is a different problem from the extraction of teeth on suspicion, for the ground of the tonsils and the subject in the American Journal of Diseases of Children, attributes the joint disease to long smoulder. All men who at any time during its existence served with the division are urgently requested to meet with their former comrades, especially on account of the fact that preliminary plans for Atlanta's entertainment of the national convention of the division will be considered. Order Issued by Trustee in Bankruptcy-Examination of R. F. Willingham Is Demanded.

Macon, Ga., October 5 .- (Special.) An order authorizing the sale of sanned goods, live stock, automooiles and other personal property of he R. F. Willingham coropration was passed today by J. N. Talley. eferee in bankruptcy, at a meeting of creditors of the corporation. The property includes canned goods valued at \$9,000.

Lawyers representing two of the creditors demand that Mr. Willingam be examined as to his affairs before matters are permitted to go further. Those making the demand were J. J. Lynch, of Chatta-nooga, representing O. B. Andrews, with a claim of \$31,349.15, and P. W. Gidwell, of Reidsville, N. C., representing the First National of Reidsville, with a claim of \$10,000. of \$10,000. Other lawyers expressed their approval of the demands.

General Walter A. Harris, attorney for Mr. Willingham, said he would write at once to physicians in charge of the sanitarium at Phliadelphia, where Mr. Willingham is confined, to see if he is in condition for an examination. If physicians believe his condition to be such as to make him capable of undergoing an examination, a hearing will be arranged at once. General Harris Intimated that the hearing would have to take place in Philadelphia, as he was sure Mr. Willingham is not able to travel. As soon as the trustees for the Willingham warehouse are elected they will meet with the trustees of the R. F. Willingham corporation and decide what is to be done with the big canning plant operated until recently by the latter corporation. According to Referee Talley, the plant will be sold, but the court will have to decide what is to be done with the proceeds of the sale. It is entirely a matter of conjecture whether the money will be divided among the creditors of the Willingham corporation.

Dr. W. G. McDowell Speaks at Rotary Luncheon Tuesday

An address by Dr. W. G. Mc-Dowell, of Opelika, Ala., entitled "What Is Democracy, Anyhow?" featured the Rotary luncheon Tuesday. The address was characterized by President W. Eugene Harrington as being a "typical Rotary address."

Plans were discussed for carrying a big delegation of Atlanta Rotarians to the inter-city Rotary meet in Augusta on October 14. A report on the recent efforts of the club to ascertain how many grammar school graduates will attend high school and how many high school graduates will attend college showed that a very satisfactory percentage of the graduates are continuing into higher courses.

Nothing is believed to have been stolen by the marauders, who were forced to make a hurried exit, after having opened a door that set the burglar alarm to ringing.

Call Officers J. W. Mashburn, Jr., and E. C. Hudson, who investigated the attempted rebbery, expressed the belief that entrance to the establishment was gained through a transom over the front door. They are likewise confident that the hurried exit was made through a broken plate glass window, and was due to the fright of the thieves after the alarm had been set in motion.

One glance at the picture above, and we of the south are entitled to offer a prayer of thanksgiving that Coach William A. Alexander has constructed a great line for Georgia Tech. Without question there will be need for just that sort of line when the Golden Tornado faces this bunch at Pittsburg on October 23. This picture represents the famed Pittsburg line, and we'll say it looks like

a corker. Around Pittsburg one never hears notes of an optimistic trend. It appears to be the custom up there to send out reports about alleged weaknesses that later prove without foundation. This year the pessimism seems to center around the report that Pitt hasn't any great offense to speak of; that the backfield isn't what it has been in former years. Strange to say, references to poor work of the line hasn't been made, and no great

effort is being made to conceal the fact that the Panthers have a line that is bringing/joy to "Pop" Warner's old heart every day. Glancing at the picture one naturally comes to the conclusion that it IS a good one. On the left is McCrory, who is slated for one of the end positions at Pittsburg this fall; next is Tackle Gourley, and they say he's just as fierce as he appears to be. Gourley has his place clinched at the present writing, and will face the

Tornado soon. Third from the left we see Bond, one of the guards Warher believes will keep the Tech ramming machine from plowing through. Stein, center, occupies the middle of the group, and McLean, guard, may be spotted next to him. Harman is next, standing at the tackle he will play against Tech. Williams, end, next to Halfback McCracken, who occupies the picture on the

there, and it made the work of the ffelder's difficult. It was the wind combined with the lack of judgment of Kilduff and (Konetchy, which gave Cleveland its first run and possibly its first two runs. Burns hit a high fly which was failing between first and second base. With the wind blowing the ball fowards him, the catch belonged to Konetchy, but Kilduff, in his eagerness, claimed the catch and chased the ball until he saw he could not reach it and then Konetchy tried and could not reach it and then Konetchy tried and could not reach it. Burns kept right on going and Koney grabbed the ball and shot it down to second.

Kilduff had gone nearly to first and Olson was not covering the base so the ball went on to left, and Burns romped all the way around, scoring the first run of the world's series on a pop fly. A baseop-balls and Sewell's hit, followed by O'Neill's two-base drive sent home another run and more might have followed had not Sewell blundered up the line from third when Coveleskie was being firown out at first and been trapped before he could get back.

The result of the first game and the rather weak showing of Brooklyn against the American league champions cast a gloom over Flatbush. Brooklyn did not display the vigor and pep in the game that it has done in the National league and did not reveal any confidence, while the American leaguers and them in a businesslike manner, as if in an exhibition, show and played around them.

the crowd decided that a pitching duel was due.

The break came with the first man up in the first half of the second inning. The man was Burns. The break was a high fly fust back of first base that Konetchy easily got uder. Getting under it was easy enough, but staying under it was something else again. The ball volplaned erratically down the slant of the stiff, gusty wind like a little round airplane with a drunken pilot inside and Konetchy did a frantie muscle dance trying to maintain his position immediately beneath it. He failed in this endeavor and the ball fell to the ground and rolled away from him while Burns made brief visits to the first and second bases and gave evidence of pushing on to pay a call on third. Kontchy finally refirst and second bases and gave evidence of pushing on to pay a call on third. Kontchy finally retrieved the ball, but he had no more luck trying to send it where he wanted it to go than he had had in trying to be where it was coming down. The ball sailed high over third and rolled to the stands, while Burns, abandoning his previous intention of stopping for a time, went back to the bench via the home plate and rested from his labors.

The two teams stacked up about fifty-fifty in everything but the luck. Cleveland had ninety-nine and one-half per cent of that. EANGE IN NEW ORLEANS COTTON

AMERICAN EXCHANGE

New York, October 5.—Yesterday's break into new low ground for the season was followed by yery violent price movements in the cotton market today. Considerable strength was shown during the earlier trading, with December contracts selling up to 22.30, but offerings became very heavy and the price broke to 21.50 in the last hour closing at 21.55, compared with 21.23 the previous day.

The general list closed steady, net 40 points higher to 20 points lower, the active winter and spring positions beling 15 to 32 points net higher.

The market opened firm at un-changed prices to an advance of 32 points in response to the higher cables. October was relatively easy cables. October was relatively easy as a result of scattering liquidation, which accompanied the circulation of notices estimated at about 2.800 bales. This caused irregularity in the later months, but southern hedge selling was less active than recently, and there seemed to be a good many contracts wanted on comparatively moderate reactions.

wanted on comparatively moderate reactions.

After the notices had been stopped, October became strong on covering, selling up to 23.30, or 105 points net higher. This stimulated covering movements in later months and before the advance was checked January sold at 21.95, with the teneral list showing net advances of 90 to 115 points.

In the case of December this made a recovery of 180 points from yesterday's low record, which evidently attracted realizing by recent buyers for a reaction and a renewal of local pressure. There was also selling for western account as the grain market weakened after early advances and the market broke rapidly late in the afternoon with January and later months making new low records for the day.

New York, October 5.—Spot m, quiet; middling, 24.24.

BETER SPOT DEMAND

RAISES NEW ORLEANS

New Orleans, October 5.—Claims of a better spot demand in the markets of the interior, and especially in Texas, along with a higher basis and less liberal offerings from growers, put the cotton market higher oday and kept it at net advances the greater part of the session. Toward the close, early buyers took profits somewhat too freely, with the result that the distant months went to small net declines, and the close was 2 points down to 48 points up net for the day.

Better cables than due helped to put the market higher on the opening, and the advance continued on the strength of the interior spot messsages until the trading months were 30 to 93-points over the close of yesterday, with December at 21.38 and March at 21.10. In the late trading there was a gradual sag until the market stood 23 up to 6 down net.

Weather conditions over the belt were considered highly favorable, the map being dry and seasonably warm, but the spot news offset this, as well as English advices to the effect that the Lancashire spinners' organization had recommended four days a week running time for a month, commencing with October 23. New York, October 5.—(Special.)—A better spot demand is reported in southern markets and there was less southern pressure that and weather conditions in the south were considered favorable for yicking. Manchester reported no agreement on short time had been reached today, but that the cotton trade would hallot on a proposal to loose the mills on Saturdays and Mondays for a period of four weeks.

Exports today 17.475, making 512-shown is the south. Temporarily, therefore, september, as to the south. Temporarily, therefore, september to day that it was more likely than stocks \$57.588.

Tem New York, October 5.—(Special.)—Interior spot markets were firmer and the hedge selling from the south smaller today. For the time being we expect rapid price changes and if the south withdraws its hedge selling orders, a further recovery is probable.

J. W. JAY & CO. New York. October 5.—(Special.)—There is no indication of any continued unward swing in the market. However, sentiment is not so universally bearlait. We continue our advice not to press the short side of the market except on decided strength, giving preference to purchases on any weakness.

The one thing necessary for the south to do in order to bring about higher prices for its chief sinple, cetton, is for it to market its cotton, slowly, holding the greater portion for a higher level of values.

The fundamental features of the situation are located in the fact that the official data at hand indicates that the prospective supply of American spinnable cotton is 215,000 bates smaller than last year's supply, and the supply may be made smaller still in event of unfavorable weather or an early killing frost, as it will not pay to pick, gin, bate and market the lowest of grades at their present low levels.

The cotton farmer holds the destiny of the market within the palm of his hand, if he will only take advantage of it. The buyer is under contract to the spinner and the spinner is under contract to the spinner and the spinner is nuder contract to the spinner and the spinner is free of foot and in a position to sell when the price suits his fancy.

Industrials and Specialties Supplant Rails as 'Change Leaders—Close Very Irregular.

New York, October 5.—The character of the trading on the stock exchange today underwent a radical change, industrials and 'specialties, for the first time in a fortnight, supplanting rails in point of strength and activity.

Buying concentrated largely on steels and related issues, the shorts covering urgently on persistent reports that no immediate reduction of existing price schedules is contemplated by the larger producers or their selling agents.

This impression was heightened by word that one of the independent manufacturers in the Pitsburg district intends to fix a \$60 rate on Steel sails, as against the long prevailing prices of \$47 and \$48 a ton. Other strong and prominent industrials embraced the equipments, motors, coppers and petroleums. To these were added such specialties as tobaccos, sugars, leathers and gas and powder issues, also textiles as tobaccos, sugars, leathers and gas and powder issues, also textiles and chemicals.

Leaders of these diversified groups registered extreme advances of 1 to 7 points, but selling for profits, especially in the more popular steels and equipments, caused considerable irregularity at the close. Rails evinced heaviness almost from the start, aside from St. Paul and several other grangers; also the more representative cotton carpiers, notably Atlantic Coast Line and Southern Railway common and pre-

all holdings continue to abow losses. Some late buying in wheat that was attributed to the scaboard was really covering previous sales on a large grake. This class of buying makes the market weaker and in no condition to withstand heavy selling. Certain been are asking how low prices will go before readjustment is completed. The only thing to buy on that traders were able to see yesterday was that there has been a decline of 51 cents in wheat within less than two weeks without a reaction. Cash corn is off nearly 50 cents from the high point last Thursday and December 37 cents from the high of two weeks are. The main thing corn traders see is the big crop; so far no damage to any extent by frosts and nearly matured, combined with a large carryover and fewer animals to feed. Cash handlers of corn say the demand has not been as good as expected as a result of the decline.

Assures.

Assuring that the Atlanta Commercial exchange is heart and soul in the movement to provide means for cotton planters to store and hold their staple until a sufficient demand warrants a fair price, and adding the information that 'farmers of Georgia have adopted this policy" to the extent that "less than one-third of last year's receipts are noted," so far this year, J. Hope Tigner, secretary of the exchange yesterday wired the Dallas; Texas, cotton exchange in answer to a telegraphic appeal for co-operation from that institution.

The appeal for co-operation in a belt-wide movement for holding cotton for a fair profila to its producers as issued by the Dallas exchange is as follows:

"We would appreciate your co-operation. At a meeting of the members of the Dallas Cotton exchange the following statement was given out:

"The Texas farmers, merchants and bankers are entitled to know the facts concerning the trade and the present price of cotton. For some time cotton in Texas has been selling about 2 cents per pound lower than in any other state in the south. This condition has been brought about by the Texas farmers dumping large stocks of cotton on the market in the face of practically mo demand from any quarter of the globe. It must be remembered that about 90 per cent of the Texas crop goes as export to the many countries around the world and the present situation in these foreign nations creates problems unknown. In past history the Texas exporters and shippers have done everything possible to absorb the offerings and find a market, but have been unable to do so in the face of the heavy sales by farmers, merchants and others.

"The remedy, as we see it, is for the farmers to stop selling cotton until there comes a demand that will absorb the offerings at a fair price. The way to stop this wild selling is for the farmers and merchants to place the cotton in warehouses so local banks can secure loans from the Federal Reserve bank in accordance with the law. Where no warehouses are available the farmers and others should securely protect the cotton from weather, etc., in such a way as the local banks may be able to secure credits elsewhere to finance the gathering of the crop. We feel sure in following the above suggestions that confidence will be created in the ultimate value of cotton which will result in the broadening of the demand from the consuming centers and fair prices will be realized for the present crop. "DALLAS COTTON EXCHANGE."

The local commercial exchange replied as follows:

The numbers of the Atlanta Commercial exchange fully agree with the statement issued by your exchange and desire to express full co-operation in urging the farmers in the entire cotton belt to warehouse

than one-third of last year's receipts are noted.
"ATLANTA COMMERCIAL EXCHANGE."
"There is no demand for cotton at this time," stated Secretary Tigner Tuesday, "and it is merely a matter of the farmers sitting steady in the boat and holding their cotton until the market price will enable them a fair profit. Banks will financially aid the farmers when warehouse receipts are offered as collateral, and the farmers should insist upon a full co-operation between themselves and the banks from a standpoint of credit extension."

School Book Ads Barred.

At a meeting of the state board of education in the offices of Superintendent M. L. Brittain Tuesday and order was passed to the effect that advertisements in school books sold din Georgia will not be allowed, and E. Aldine Pound, formerly of Waycross, was elected high school inpector.

This action of the board followed a protest several weeks ago by Mayor James L. Key. when it was discovered one of the books contained advertisements. A letter was read from one of the companies, stating, the copies sold were intended for sale in western states, where there is no objection to the practice. It was also explained that the sale of books in this state under contract was being carried on at a loss and the advertisements were inserted to meet this deficit.

The board agreed that the books already sold here should not be returned to the company, but continuance of the practice was prohibited.

The positien to which Mr. Pound was elected pays a salary of \$3,300 and he will work in connection with the state university at Athens. He will begin his duties November 1.

show which the latter organization will stage in Atlanta October 21. 22 and 23, during the Southeastern fair. The exhibits will be held at 243 Peachtreet street. Members of the humane society have taken tickets for the show to sell, and the proceeds of the sales will be divided equally between them and the kennel club. The money derived from this source will be used in the establishment of a gas chamber at the city dog pound for the asphyxiation of delinquent dogs, to supplant the methods now employed. Mrs. Hill told the organization of the establishment of five sub-stations of the humane society, which had been established at various points in the city, where cases of inhumane treatment to animals might be reported and from the station transmitted to the proper authorities. It was suggested that a central station, probably at the army information booth at Five Points, be established and Mrs. Hill was instructed to arrange for this station, if possible. automobile, which was seized. Fields had been fined \$500 in the state court.

A. Hutcheson, who pleaded gullty to having whisky in his possession, was fined \$75. He explained to Judge Sibley that the whisky was a remedy for rheumatism. Other pleas of guilty to violations of the prohibition law were made by Fred Echols, who was fined \$50; D. W. Todd, fined \$60; Louis Economy, fined \$50, and Marshall Mack, sentence not yet imposed. Verdicts of guilty were returned against Charlie Miller. A. C. New and C. V. Kidd, on whisky charges. Judge Sibley will impose sentences on them later.

The bond of Frank Hart, charged with violating the Harrison antinarcotic act, was forfeited when he failed to appear for trial. Bonds were also forfeited in the following cases, all for violations of the prohibition law: H. M. Castleberry, Pete Cefalu, Paul Armbrush, J. C. Legg, I. N. Streetman, and Belle Belcher. a young woman.

The federal grand jury adjourned after returning 34 true bills and eight no bills. Among those indicted yesterday were Robert Cannon, alias Will Choate, and William Fuller, both of Whitfield county, charged with passing raised currency at Calhoun on June 15. It is claimed that the accused men passed some \$1 federal reserve notes which had been altered so as to appear as \$10 bills. "What will gentle women not dare to do next?"

This is the question constantly asked by spectators at the Ringling Brothers and Barnum & Balley circus as they watch dainty Lily Leitzel turn and twist and perform her astonishing, continuous revolutions while dangling from a single rope suspended in mid-air. One slip of the wrist or turn of the toe would be fatal, but the daring little lady is not afraid.

Lily is a dimpled little creature weighing scarcely 90 pounds and possessing saucy brown curis, which fall in confusion around a pair of dancing eyes. She was born in Prague, Bohemia.

Miss Leitzel is an accomplished musician, having studied under some of the master instructors in the confusion and wheat streets.

Europe. She prefers, however, to imperil her life on lofty swinging rease and luxury as a musician or dancer. But away from the great clastic nets and smell of tanbark, she sings merrily and plays the different compositions of the great composers.

Since the circus opened Miss Leitzel's daring and her back-arm twisting and rope climbing have focused arm revolutions, is the most difficult feat known to performers. Miss Leitzel will be one of the thousand features of the great double circus when it exhibits here Monday, October 18, at Jackson and Wheat streets.

Dort, of the Dort Motor Car company, Flint, Mich., told in At-lanta Tuesday noon why some au-tomobiles can be reduced in price TO BE OPERATED BY WOMAN'S CLUB

All of the concessions at Lakewood park will be turned over to the women of the Atlanta Woman's club next Friday and a program, containing a number of interesting features will be rendered at the park on that day. The ladies will act as cashiers on this occasion and the receipts taken in will be used to swell the fund for building a new auditorium for the club.

The Southeastern Pair association has agreed to donate half of the proceeds from the concessions to the lub and the ladies are preparing a program that will lure large crowds

seen. The motion picture program will consist of a Mary Pickford feature, "Rebecca of Sunnybrook Farm," and a comic film, "The Prohibition Donkey."

All the events on the program will be free and no entrance fee to the grounds will be charged. It has also been announced that autos will be allowed to park in the grounds. Picnic suppers will be spread on Sylvan terrace and the public is arged to come out to the parks and to bring lunch. The fun will start o'clock, lasting until late that

Brazil to Export Sugar.

Rio Janeiro, October 5.—Simoes Lopez, minister of agriculture, today signed a decree permitting the exportation of sugar from Brazil, the only restriction being that sufficient stocks must be maintained for home consumption. Prohibition of the exportation of sugar was enforced from July, 1917, until recently when the ban was partly raised.

Furthermore, Mr. Dort gave litthe past."

Furthermore, Mr. Dort gave little promise of reduction in the near future, saying: "Materials have been purchased by us and by all motor car manufacturers for 1921 production at a very considerable advance on the whole over 1920 prices. Therfore, unless those purchase contracts are treated by the purchasers as 'scraps of paper' or the seller voluntarily revises contract prices downward, there is no justification for any motor car manufacturer to reduce prices unless he has been profiteering."

"But." added the speaker, "if there be any such manufacturers, this is an opportune time for them to properly adjust their prices to sound values."

Mr. Dort cited the increase of 17 per cent in the price of Dort cars and challenged any one present to name "a single article of any kind" that had been purchasable at so slight an advance during that period. **Atlanta Theater** Last TODAY Mat. at 2:30 Times TODAY Night at 8:30 The Musical Champagne Cocktail Entertainment De Luxe "Good Morning Judge"

Regicald Denny, the athletic young man who plays Napoleon Gibbs in the Realart production of '39 East.' starring Constance Binney, which is being shown today at the Porsyth theater, says the next time he makes a picture he will prepare for it by going on a raw ment diet. In one of the scenes Mr. Denny performs a very neat back somersauit over the back of a park bench and rolls down a hill. It was necessary for Mr. Denny to make this turn twenty times before the director said O. K., and besides getting very dizzy it was in intense July heat.

BROTHER, LISTEN!

HERE IS THE BIGGEST SACRIFICE that has ever been made on AUTOMOBILES in THE CITY OF ATLANTA. NOT ONLY THE PUBLIC, but dealers, can buy cars at prices that are unbelievable. If you can't use a car until next year, it's a cracker-jack investment.

"Here's the Reason"

THROUGH A CHANGE OF AGENCY in this city, of one of the largest and most reliable automobile concerns, all cars, new and second-hand, will be offered for sale at your own price. Any reasonable offer takes one or more, and every one is per-The new cars will be sold at reductions of from \$500 TO \$1,500, and some of them have never turned a wheel. Among them are several new and slightly used cars. The new ones are cut from \$500 to \$1,000. The prices on the slightly used ones and those rebuilt will astound you.

WE HAVE Paiges, Roamers, Essex, Buicks, Hupmobiles and other standard makes. One Roamer with Duesenberg motor and special body at a tremendous reduction. Sale continues all this week at 46 Houston street. This is where the other fellow stands that depreciation we have been telling you about.
